THE PROBLEM

Why Hotel Banquets Bleed Revenue Every Single Day

Updated: May 2025

6 Critical Pain Points Impacting Hotel Revenue

Scattered Lead Sources Critical

Leads pour in from Meta, Google, WedMeGood, Weddingz, walk-ins & referrals — all in separate places. No single view, no unified follow-up.

Zero Follow-Up System 6-24hrs

85% of hotel banquet teams use WhatsApp & diaries. Hot leads go cold in 48 hours. Response time averages 6–24 hrs.

No Campaign Structure Random

Hotels run random ads with no campaign calendar. No segment-wise targeting — wedding, corporate, birthday all get same creative.

No Platform Visibility 60%+

60%+ of online venue searches return zero results because hotels aren't listed on WedMeGood, VenueLook, Weddingz.

No ROI Visibility Unknown

Hotel owners have no idea which campaign generated which lead. Ad spend is guesswork with no tracking.

WhatsApp Used Wrong Manual

Team manually forwards hotel brochures on personal WhatsApp. No automation, no broadcast, no template messaging.

 **Result: Hotels lose ₹15–50 Lakh/year in banquet revenue**

To faster, better-organized competitors

₹15–50L

Annual Loss

NEXORA

One Platform. Every Lead. Every Booking. Every Rupee Tracked.
